DEAR PARISHIONERS

The mission of the Church is to guide people in the ways of faith, to lead on the road to salvation. Through the preaching, teaching, and sanctifying role of the Church, its members are shown the way that leads unto God. Certainly, in the education of our youth, the Church fulfills its mission while preparing for the future.

Catholic School's Week begins today. This gives us pause to reflect upon our parish school and its fifty-one year history. As I mentioned last week, we have just under two hundred children, a wonderful teaching and administrative staff, a constantly updated facility, and new programs and ideas to improve upon our future. **COME AND SEE!** Why not come by and see the future of America and the future of the Church as they grow in wisdom, knowledge and faith. If you have a child of school age, consider the possibility of this wonderful Catholic Education. It is a national statistic that children who have been educated in our Catholic School System have greater possibilities in the future and are more likely to excel and be at the top of their classes in higher education.

There are a limited number of places open in our upper grades. With the Catholic Faith as the foundation of education, God can do great things with our lives.
